The real mystique behind every tree is its roots. It all begins with a seed deep within the earth, finding nourishment, exploration, and growth, until an extension of it breaks the surface to reveal something beautiful. From above, we admire sturdy trunks and winding branches ever vibrant with leaves and buds. However, this silhouette merely mirrors the pillar strength below, where the roots absorb, radiate, and center ever-renewing forces.

K’Alma is about nourishing at your roots.

K’Alma Spa Journeys simply and powerfully aim to deliver balance to your energy and focus, allowing you to be more grounded. We draw from our own roots - the locale and culture of Peru, rich in healing practices still honored today by The Q’ero spiritual healers. We embrace their ancient knowledge and believe that now is the time to return to the sacred.

To help us initiate this reset, K’Alma enlists the Earth’s many natural gifts. Indigenous crystals are the centerpiece of our Spa, where vibrations cast distinct energies. Products are custom blended from our careful curation of organic ingredients. Treatment rituals are performed with the utmost technique, not only in touch point, but in spiritual intention.

Here you will discover beauty and wellness, and a deep connection to what makes you truly thrive.
The Spa includes six treatment rooms, including Couples and Hydrotherapy suites. Each is themed according to the healing powers of individual crystals historically collected by the healers in Peru. In aromatherapy, the crystals and energies come to you according to your needs. The room will choose the person, based on what each guest needs.

Khuyay “Love” Couples Massage

Designed to reflect the ancient Machu Picchu Ritual of the Sun & the Moon, this couples treatment creates one energy through the combination of the masculine sun and the feminine moon. This journey is an intentional massage designed to strengthen the bond between partners. It begins with an intention written on a small slip of rice paper. Then, each guest selects an aromatherapy oil to be combined into one unique essential oil blend to be utilized for the treatment. The couple’s written intention is placed inside the aromatherapy oil blend bottle for the treatment and it goes home with the couple afterwards. As we combine and bind the energies of the couple, they are encouraged to hold hands at the beginning of the massage, then to relax deeply into their individual massages. As the massage concludes, the couple holds hands again to bind their energies and intentions. All massages are tailored to each guest’s need.
